Installing Git and GitHub Desktop

Università di Camerino
Scuola di Scienze e Tecnologie
Sezione Informatica

<https://git-scm.com/downloads>

<https://desktop.github.com/>

The screenshot shows the Git website's 'Downloads' page. The header includes the Git logo and the tagline '--fast-version-control'. A search bar is present. The left sidebar contains links for 'About', 'Documentation', 'Downloads' (highlighted), 'GUI Clients', 'Logos', and 'Community'. The main content area features a 'Downloads' section with buttons for 'Mac OS X', 'Windows', and 'Linux/Unix'. A monitor graphic displays the 'Latest source Release 2.23.0' and a 'Download 2.23.0 for Windows' button. Below this, there are sections for 'GUI Clients' and 'Logos'. The 'Git via Git' section provides a command to clone the repository and a link to the web interface. The footer includes a link to the Pro Git book and a note about the Software Freedom Conservancy.

git --fast-version-control

The entire **Pro Git** book written by Scott Chacon and Ben Straub is available to read online for free. Dead tree versions are available on Amazon.com.

Downloads

Latest source Release
2.23.0
Release Notes (2019-08-16)
Download 2.23.0 for Windows

Older releases are available and the Git source repository is on GitHub.

GUI Clients

Git comes with built-in GUI tools (**git-gui**, **gitk**), but there are several third-party tools for users looking for a platform-specific experience.

[View GUI Clients →](#)

Logos

Various Git logos in PNG (bitmap) and EPS (vector) formats are available for use in online and print projects.

[View Logos →](#)

Git via Git

If you already have Git installed, you can get the latest development version via Git itself:

```
git clone https://github.com/git/git
```

You can also always browse the current contents of the git repository using the [web interface](#).

</> About this site
Patches, suggestions, and comments are welcome.

Git is a member of Software Freedom Conservancy

The screenshot shows the GitHub Desktop application interface. The top bar includes the GitHub logo and links for 'Overview', 'Release Notes', and 'Help'. The main heading is 'GitHub Desktop' with the tagline 'Focus on what matters instead of fighting with Git. Whether you're new to Git or a seasoned user, GitHub Desktop simplifies your development workflow.' A prominent purple button says 'Download for Windows (64bit)'. Below it, there are links for 'Download for macOS or Windows (msi)' and 'By downloading, you agree to the Open Source Applications Terms.' The bottom section shows a preview of a repository with a commit message 'Add event handler to dropdown component' and a diff view showing code changes.

Hacktoberfest

Hacktoberfest is a month-long celebration of open source software. Each October, open source maintainers give new contributors extra attention as they guide developers through their first pull requests on GitHub.

**Support open source
and get a T-shirt**

Hacktoberfest — brought to you by DigitalOcean in partnership with DEV — is a month-long celebration of open source software. Maintainers are invited to guide would-be contributors towards issues that will help move the project forward, and contributors get the opportunity to give back to both projects they like and others they've just discovered. No contribution is too small — bug fixes
